BCIT -New Media Design and Web
Development

PROFILE

Adelia is a UX/UI designer who is passionate about creating wireframes and prototypes. With a focus on enhancing the overall user experience, she seeks to join a dynamic design team where she can contribute her skills and creativity to deliver intuitive and visually compelling solutions. Excited about joining a like-minded professional, Adelia is looking forward to growing her skills and bring meaningful impact to the company

EDUCATION

As a student in BCIT, Adelia has built a solid foundation in design principles and methods. Studying at BCIT, she has been not only provided with theoretical knowledge but also spent lots of time practicing her skills and creating a variety of prototypes, wireframes, and other essential UX/UI concepts. Fast phased education plan has taught her to think and create fast yet pay attention to details. The collaborative education environment has given her the ability to work effectively within team members, focusing on communication and teamwork.

WORK

During her studies at BCIT, Adelia has successfully done various projects focused on creating user-friendly wireframes for websites and mobile apps. Practicing her skills both in Figma and Adobe XD while creating different assets and product displays in Adobe apps such as illustrator and photoshop. Some of the wireframes were also hand coded using HTML/ CSS. Those projects could be seen in portfolio, they reflect on Adelia's dedication to creating detailed and visually pleasing interfaces.
